Part 1: Getting Started

Primary Purpose

- SafeHub is a web-based AI-enhanced mental health and appointment system designed for LCUP college students under the Student Welfare Services (SWS).

The system provides:

- Online counseling appointment booking
- AI-powered mental health support

- Mood tracking
- Emergency hotline access
- Mental health announcements and resources
- Anonymous student interaction

Device Requirements

- Desktop Computers
- Laptops
- Tablets
- Smartphones

Browser Requirements

- Google Chrome
- Microsoft Edge
- Mozilla Firefox

First-Time Access

- Open the SafeHub website.
- Read the welcome page.
- Click Register Now or Sign In.
- Use your LCUP G-Suite account to continue.

Figure 1. *Landing Page*

Part 2: Account Access

Signing In

- Open Safehub
- Click Sign In
- Select your LCUP G-Suite account.
- Wait for the system to authenticate your account.

Account Restrictions

If a non LCUP account is used:

- Access will be denied
- An error message will appear

Figure 2. *Account Restriction*

Logging Out

- Open the Settings page or the dropdown menu at the top right
- Click Log out
- Confirm logout

Figure 3. *User Settings*

Part 3: Home Dashboard

Dashboard Overview

The dashboard is the main interface of Safehub. It provides access to:

- Mood tracking
- AI chatbot
- Counseling appointments
- Notifications
- News feed
- Emergency hotlines

Figure 4. *Dashboard*

Part 4: AI Chatbot Support

Purpose of the AI Chatbot

- The AI chatbot provides immediate mental health assistance and guidance for students.
- Provide emotional support

- Suggest coping strategies
- Redirect users to emergency resources

Accessing the AI Chatbot

To use the Chatbot:

- Open the Chats section.
- Select Safehub AI.
- Type your message.
- Wait for the AI response.

Figure 5. AI Chatbot

Part 5: Counseling Appointments

Purpose of the Appointment System

- The appointment module allows students to schedule counseling sessions online without visiting the SWS office physically.

Booking an Appointment

To create an appointment:

- Open the Appointment page.
- Click Book New Session.
- Fill out the appointment form
- Select:
 - Preferred counselor
 - Date
 - Time
- Accept the Terms and Conditions
- Click Submit

A confirmation message will appear once the booking is successful

Cancelling an Appointment

- Open the appointment details
 - Click Cancel Appointment
 - Confirm cancellation
-

Part 6: Mood Tracking

Purpose of the Mood Tracking

Mood Tracking helps students monitor their emotional well-being over time. The feature encourages self-awareness and emotional monitoring.

Recording a Mood

The Mood Tracking popup appears after login. Users may choose moods such as:

- Happy
- Sad
- Angry
- Fearful
- Disgusted

After selection:

- The mood is saved automatically.
- The dashboard graph updates.

Part 7: News Feed and Community Interaction

Purpose of the News Feed

The News Feed allows SWS staff to share:

- Announcements
- Mental health awareness posts

- School events
- Guidance resources

Viewing and Posting

Users can:

- Scroll through posts
- Like post
- Comment anonymously
- View images and updates

Admin and Counselor can:

- Create a new post
- Like and Comment anonymously

Create a Post

Admin and Counselor are allowed to make a post. To create a post:

- Open the News Feed or Posts section.
- Click Create Post or New Post.
- Enter the following:
 - Post title
 - Images
 - Context
- Click Publish.

The post will appear on student dashboards.

Figure 6. *Post Creating*

Editing a Post

Admin and Counselor are allowed to edit their post. To edit a published post:

1. Open the newsfeed.
2. Select the three dots under the image.
3. Click Edit.
4. Update the content.
5. Save changes.

The updated version will appear automatically.

Figure 7. Post Editing

Part 8: Emergency Hotlines and Notification

Emergency Hotline Access

SafeHub provides access to important emergency hotlines.

Examples include:

- Mental health hotlines
- Crisis intervention contacts
- Emergency response services

Figure 8. Hotline

Opening Hotline Links

To access hotline information:

- Open the Hotlines page.
- Select a hotline.
- Click the contact or website link.

Notifications and Alerts

Notifications help users stay informed about:

- Appointment updates
 - System announcements
 - Emergency alerts
 - Counselor responses
-

Part 9: Troubleshooting

Unable to Login

Possible Causes:

- Incorrect account
- Non-LCUP email
- Internet connection issue

Solutions:

- Use an authorized LCUP account
- Refresh the page
- Check internet connectivity

Notifications Not Appearing

Possible Causes:

- Notifications disabled
- Browser permissions blocked

Solutions:

- Enable browser notifications
- Refresh the application
- Re-login to the system

AI Chatbot Not Responding

Possible Causes:

- Weak internet connection
- Temporary server issue

Solutions:

- Refresh the chat
- Reopen the chatbot
- Check internet connectivity

Appointment Submission Failed

Possible Causes:

- Incomplete form
- Missing required fields
- Terms and Conditions unchecked

Solutions:

- Complete all required information
- Accept the Terms and Conditions
- Try submitting again

End of Manual

- SafeHub was developed to provide LCUP students with a secure, accessible, and user-friendly digital mental health support platform.
- Through its AI-powered features, counseling appointment system, mood tracking tools, and emergency support services, SafeHub aims to improve student well-being while supporting the operations of the Student Welfare Services (SWS).

- The system encourages early mental health support, easier communication, and safer access to counseling resources within the LCUP community.
